

Respite Care

Respite Care Service Providers: Provide supportive care and supervision in a recipient's home or in the community.

Respite Care Service Providers must address and document the following:

- Ongoing efforts to address the person's choices and preferences.
- Ongoing efforts to address the person's physical health needs.
- Ongoing efforts to address the person's safety needs.
- Ongoing efforts to ensure the person's behavioral/emotional health needs are addressed.
- Document progress (or lack thereof) towards achievement of an identified Support Plan goal listed on the Weekly Service Log.
